

# EMDR Processing Worksheet

Eye Movement Desensitization & Reprocessing — Session Record

Client: \_\_\_\_\_ Date: \_\_\_\_\_ Session #: \_\_\_\_\_

## PHASE 3: ASSESSMENT

Target Memory / Image:

Negative Cognition (NC):

Positive Cognition (PC):

VOC (Validity of PC, 1-7): \_\_\_\_\_

Emotions:

SUD Level (0-10): \_\_\_\_\_

Body Location of Disturbance:

## PHASE 4: DESENSITIZATION — Set Tracking

| Set # | BLS Type | Duration | SUD | Client Report (images, thoughts, sensations) |
|-------|----------|----------|-----|----------------------------------------------|
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |
|       |          |          |     |                                              |

# EMDR Processing Worksheet (cont.)

---

## PHASE 5: INSTALLATION

**Positive Cognition:**

VOC (1-7) — Before: \_\_\_\_\_ After Installation: \_\_\_\_\_

**Notes:**

---

---

## PHASE 6: BODY SCAN

**Residual body sensations:**

---

---

Clear? ☐ Yes ☐ No — If no, additional sets performed: \_\_\_\_\_

## PHASE 7: CLOSURE

Final SUD Level (0-10): \_\_\_\_\_

Session complete? ☐ Yes ☐ Incomplete (requires continuation)

Containment / Safe Place exercise used? ☐ Yes ☐ No

**Client instructions for between sessions:**

---

---

---

## PHASE 8: RE-EVALUATION (Next Session)

SUD on same target: \_\_\_\_\_ New material emerged? ☐ Yes ☐ No

**Notes:**

---

---

---

Therapist Signature: \_\_\_\_\_ Date: \_\_\_\_\_
